

Job Description: **Senior Electrical Engineer (Cavan Office)**

About Bennett Freehill

Bennett Freehill is a leading Building Services Consultancy and qualified Passivhaus and NZEB Designers, Commissioning Managers and Licenced BREEAM Assessors.

We are the 2023 Irish News Workplace & Employment Award Winners - Best Place to Work (Small Business) and Best Wellbeing in the Workplace Strategy (Small Business).

We provide sustainable, multi-disciplined design services for pioneering projects such as the award winning South West College Erne Campus 'RICS UK Project of the Year', Giants Causeway Visitors Centre, DAERA 'Jubilee House' Headquarters and CAFRE Greenmount and Loughry Campus Redevelopments.

We are focused on creating a fun and rewarding environment for our team, allowing us to nurture and retain the most dynamic and technically accomplished talent in the industry. Our team is focused on creating innovative mechanical and electrical design and continuing the practices legacy of growing through a combination of repeat business and client recommendations.

The Role:

We are seeking an experienced **Senior Electrical Engineer** to join our team and fulfil the Practice's overall objective in producing first class engineering on time and on budget. This is a full-time role based in our new Cavan office.

Responsibilities:

- To provide discipline leadership
- To adhere to the design process and undertake electrical engineering design activities relating to the project
- To fulfil the Practice's overall objective in producing first class engineering on time and on budget
- To have thorough knowledge of, and comply with, company procedures and standards
- Qualities and Skills required Essential
- Be accountable for technical performance, quality, and budget control on all projects within the team and have a hands-on approach to resolving technical issues in design elements
- Ensure technical quality through implementation of best practice and continuous improvement processes
- Able to demonstrate ability to undertake the above responsibilities

The successful candidate will have:

- Recognised qualifications in Electrical Engineering
- 5+ years previous experience in a Senior Electrical Engineer role within Building Services

- Previous experience using Revit software and/or Amtech Software
- Obtained chartered status or be working towards this
- Experience of BREEAM or having working familiarity with environmental assessment methods
- Familiar with BIM
- Good knowledge of CIBSE design standards etc.
- Excellent leadership skills and client focused
- Permission to legally work in the UK and Ireland

Qualities and Skills required:

- Solid technical understanding of own core engineering discipline and the role of the environmental engineer within the design team
- Broad understanding of other engineering disciplines engaged in the design of the built environment
- Good understanding of UK Building Regulations and industry standard design reference material
- Ability to use some of the following software applications: Dialux, Amtech, Microsoft 'Office' suite, Adobe Creative Suite
- Ability to use initiative in response to demands of project
- Able to negotiate and communicate well in graphical, written or verbal forms including ability to listen and to understand others
- Ability to understand and formulate design decisions
- A flexible and open attitude towards new ways of working and a proven commitment to independent, lifelong learning
- Self-organised and motivated
- Developed problem-solving and analytical skills
- Good interpersonal skills and able to work independently and as part of an effective team
- Able to build good relationships at all levels, internally and externally
- Resilience and initiative to cope with conflicting demands, able to prioritise duties and work effectively under pressure

Benefits:

- Paid training and career development. We work with you to reach your career goals
- Flexible working environment. We operate on a Flexitime policy meaning you can work the hours that suit your lifestyle, work from home 2 days a week and finish from 1pm on a Friday
- Healthcare benefits
- 34 days holiday
- Competitive employer pension scheme
- Sports, social and wellbeing committee that organise fully funded events in and outside of work
- Employee wellbeing scheme
